

DEAD MAN TALKED BACK TO LIFE

MIRACULOUS RESCUE FROM GRAVE.

Medical Science Completely Upset by Rochester Wonder-Worker,
Who Restores Life and Heals the Sick Without the Use
of Drastic Drugs or the Surgeon's Knife.

Hopeless Invalids Restored to Health.

Gives Services to Rich and Poor Alike Without Charge—Cures Men
and Women Thousands of Miles Away as Easily as Those
Who Call in Person.

ROCHESTER, N. Y.—(Special Correspondence).—"It is charged a thousand dollars a treatment I could do no more than I now do for nothing. It is useless for you to offer to pay me for my services," said Professor Thomas P. Adkin, of this city, to a wealthy patient. "When I say this, it makes no charge for certain help to those who are ill and suffering. I mean every word of it. I am able to practice my profession because I love it, because I feel that to use this wonderful power of God, to make man's life a blessing to the world, is a duty which I owe to all mankind, to cast out from their bodies the evils of disease. That is why I give my services free to so many people. Why the poor man receives no attention and care as his more fortunate neighbor."

Yes, you may say that I talked Mr. C. A. Hubbard, of Cuba, N. Y., back to life," replied Professor Adkin, in answer to a question put by the reporter. "A dead man" was the verdict pronounced by doctors who had tried to cure him. I saved him from the grave, proved to him that I was gifted with the ability to combat any or all diseases; that I am successful in curing thousands of similar instances. Some of the worst cases in the country, men and women on their way to the grave, have been brought to me by their physicians, when all hope was abandoned, and I have cured them so quickly that I have been credited with working miracles. Letters blotted with the tears of pain and sorrow have come to me, imploring the aid I am so glad to bestow, and in a few days they have come with joy and gratitude over the wonderful restoration to health my treatment has accomplished."

Professor Adkin disdains the use of all "isms" or "dangerous" drugs, saying: "While it is true that I cure thousands of cases, I never see, there is nothing supernatural about my method. It is scientific to the highest degree, however wonderful and puzzling it may be to doctors and scientists. I have the last discovered, the long lost secret of nature that sages and chemists have been unsuccessfully seeking for centuries past. I was convinced that there was a power above and beyond drugs and medicines, as superior to them as electricity is to a tallow candle. Almost by accident this wonderful secret was revealed to me in all its majestic simplicity, and now I know that, by means of this law of life, I can combat any disease, can restore to health people in the last stages of what are called fatal illnesses. It is nothing what other doctors may say; no matter how chronic the trouble or how hopeless or incurable the case may seem." Over twenty physicians, specialists in their practice, have taken up the study of Professor Adkin's methods, some of them staying with him and daily witness the almost miraculous cures he performs. From him rich and poor alike receive the same treatment and uniform courtesy, which have won him so many friends among the influential men of the country.

One of the most marvelous things about this man's miraculous curative power is his ability to cure thousands of miles away as easily and quickly as though he stood by their bedside. It would seem beyond doubt that thought-transference, magnetic waves of the will, or some subtle force, such as is believed to travel through space as telegrams are sent without wires; but the nature of this potent electric fluid and how it takes hold and quickly rides the body of material disease, is beyond explanation. The reporter, desiring to learn more about the case of Mr. Hubbard and other patients cured by this sovereign law of life, requested Professor Adkin for further details. In response the wonder-worker said: "Perhaps I could better tell to a friend, than to a newspaper. I have written what Mr. Hubbard said in a letter he wrote to me. Mr. Hubbard was pronounced a dead man, and says 'Vita-on' brought him back to life. His was a very serious case, and he is in charge. He now sends his sworn statement to me to the benefit he has received. Could any one doubt the evidence that is contained on this sheet? The sworn statements of those who have taken the 'Vita-on' are the best evidence to convince the most skeptical that Vita-on is way ahead of the ordinary forms of treatment." Here is a copy, word for word, of extracts from the letter, handed to the reporter:

"I am a little ashamed to write you, as with those whose duty it is to provide the facilities for education that the advanced position of the city now clearly demands."

"I am most heartily in sympathy with the movement for a new school building," says Dr. Hoge. "The situation at the present time calls for serious consideration. The overcrowding is very great, and the chances are that the increase each year will be enormous. Even now the breathing space allotted to each pupil is far below that demanded, and this condition, owing to the construction of the building, has a tendency to be prejudicial to health, let alone the importance of having good study rooms. The building is not built on a high, well-ventilated site, and the place is crowded. The present location is central and in all respects admirable, but the building is dark and dreary. There is a sad lack of proper ventilation. The school has no playground except an alley in the rear. About eight hundred children are crowded into the building, and the place is not even comfortably accommodated about five hundred. There is no room to spread out. Everything is already lopping over."

"What we need and need badly is a new building, modern and thoroughly equipped, surrounded by large playgrounds, full of air and light, and properly ventilated. The building is almost twice as large as the present building. I should like to see some of those who have duty it is to provide the facilities for education that the advanced position of the city now clearly demands."

"What we need is a new and larger building on a new and larger site. There should be large, airy rooms, with proper ventilation. We must have playgrounds with all means of recreation, and the architecture in keeping with the size and pretensions of the city. I am not in favor of a manual training school in connection with the High School. They should be separate buildings."

"According to Mr. Fox, the ideal high school class room has not more than twenty-five pupils, though thirty can be crowded in. He gave out the following figures representing the attendance in the classes of the Richmond High School for a day during the past week: Post Graduate A 17; Post Graduate B 11; Senior A 17; Senior B 11; Junior A 17; Junior B 11; Intermediate A 17; Intermediate B 11; Intermediate C 11; Intermediate D 11; Junior A 17; Junior B 11; Junior C 11; Junior D 11; Junior E 11; Junior F 11; Junior G 11; Junior H 11;
